German Army Was Ready to Capitulate

Truth of the Situation Before the Arrests is

It is becoming clearer all the time that the signing of the ceasefire produced a complete capitulation of the German forces. This point is broadly made by Lord Hewart, in an editorial in *The National Review* the other day.

It was subsequently, I assume, as the complete was signed Cring took the great pleasure of signing across the German border. I took her to her in Berlin and the impression that she left on me as a woman and a writer in the German language is a very strong one. The impression of an unassuming, friendly, but very intelligent woman, a woman who is a writer. Further, the most interesting part of the article is the account of her interview with the *Frankfurter Allgemeine Zeitung*.

From *Freeman's Magazine*. By
Trapped by French Officer.

THE old German commander who spent through the war with an unblemished reputation for military courage was Von Mackensen, who received honors and medals and took such an important part in the Eastern campaign. Von Mackensen had the good fortune to be left in the western zone and was being ordered to the front in the East. He was in the German line in the western front. There was no question that he would be successful in the campaign of the East just as much as in the western front. He was in the German line in the western front. Tires That Make Friends

THE Goodyear Cord Tire is the supreme product of this institution. It is the fine result of the mightiest effort of a world-wide organization unlimited in means and old in experience. Into it goes every worth-while idea, every extra-quality material, we have developed.

Naturally this tire serves supremely well—in economy and in satisfaction. Through extraordinarily long mileage it overshadows its extra price. By lively and muscular action it makes riding and driving easy—saves car and gasoline.

You would expect Goodyear to produce

this tire. Our entire history is but the story of tire development. We have sought the friendship of the world's motorists by building tires ever better, by discovering the many things that make the automobile tire of to-day a willing and efficient servant. It is noteworthy that while higher in price, tire-cost-per-mile is lower to-day than before Goodyear Cord entered the field.

Only on that one basis—quality and service—do we wish the Goodyear Service Station to sell you Goodyear Tires. Your part in the bargain is to call there and talk it over.

Ask, also, about the Goodyear Heavy Tourist Tubes. You'll find them extra thick and extra good—giving greater service in any tire and especially suited to the Goodyear Cord Tire.

GOOD YEAR CORD TIRES

And It Saves \$800 a Year, Too

*in addition to what Mr. Dunlop tells
in his letter on the page opposite*

On the evening of December 31st Dunlop-Magae Company, Limited, closed at 6 o'clock, as usual.

At 9 o'clock the annual statement was ready for the board of directors.

"But we couldn't have done it," Mr. Dunlop, the Manager says, "without the Burroughs Machine."

Of course it was the everyday work

of the Burroughs, day after day, that made that performance possible—because a Burroughs has all postings and extensions made and proved every evening.

Dunlop-Magae Company, Limited, appreciates that result of Burroughs methods—area more than the salary saving of "not less than \$800 a year" which the machine makes for them.

The A B C of Business

The standard Burroughs has customers everywhere for Adding, for Bookkeeping and for Calculating—because there is a model which will fit into any business, large or small, and apply to it in the savings of a few months.

Burroughs office are maintained in many Canadian cities—St. John's, Nfld., Halifax, N.S., St. John, N.B., Quebec and Montreal, P.Q., Ottawa, Toronto and Hamilton, Ont., Winnipeg, Man., Regina and Saskatoon, Sask., Calgary and Edmonton, Alta., Vancouver and Victoria, B.C.

Burroughs Adding Machine Co. Ltd.
Hamilton, Ont.

Gentlemen, In December 1917, we installed a Burroughs Bookkeeping Machine, and at that time were very satisfied as to its adaptability to our system of accounting, and whether it would result in any real saving to a moderate size business.

Therefore, it is only fair to tell you some of the results we have obtained.
All entries for previous day posted each morning.
Accounts always up-to-date.
Each account has current balance printed in plain type.
Customers not kept waiting.
Total amount of Accounts Receivable shown each day.
Ledger always in balance.
Latter taken off in one half hour.
Monthly total balance taken off in one half hour.
Statement mailed first day.

But here is the greatest benefit. One financial year ended at six o'clock December 31st, and at nine o'clock that night we had completed our sales summary for the year and Annual Balance Sheet, and Profit and Loss Statement with the exception of figuring the inventory. On January 1st the statements were ready for audit.

We will be glad to give more detailed information at any time as we have been converted into "Burroughs devotees" for "better bookkeeping".

Yours very truly,
THE DUNLOP-MAGAE COMPANY, LTD.
